Downtown Topeka, Inc. is pleased to announce that another new business in downtown is open and ready to greet all of Topeka!

In the northern part of the downtown district *Creative Art Photography & Gallery* has moved into 307 S. Kansas Avenue. This photography and art studio is operated by Jennifer Lutz-Micheal and Lyn Weichert. The pair met while Jennifer was a lab assistant and Lyn was a first year photography student. They became friends and maintained contact after graduating. They along with two other women founded Artist by Nature. In the fall of 2006 an opportunity arose to lease a studio space. A plan was conceived and by April of 2007 the doors to the studio/ gallery were opened.

The team offers a full menu of photography services including wedding, portrait, family and senior pictures. However, their passion and specialty is in capturing for their clients the cherished maternity moments of an expecting family. Jennifer and Lyn's signature Maternity Photo Package features a shoot each trimester, baby shower coverage and after birth photos. Their gallery space is also available for artists of all mediums, along with darkroom and studio leasing for other photographers.
