Downtown Topeka, Inc. is excited to announce the official opening of the Crosby Place Public Parking Garage. The newly built City of Topeka parking facility is an important amenity. It's placement is key to the growth of downtown housing projects and office space support. In addition to adding 283 total parking stalls to the downtown inventory the new structure has visually brightened a previously blighted spot in the central core. We hope you will join us, along with Mayor Bill Bunten and the Greater Topeka Chamber of Commerce, as we ceremoniously cut the ribbon announcing that the Crosby Place Parking Garage is now open and ready to serve downtown occupants and visitors.

Please join us in welcoming this new addition to downtown!
